

Mast Set for Yachts

The mast set is designed for easy installation on yachts and includes all fittings necessary. The tower base is adjustable to any angle and fits for deck and stern mounting as well.

Due to the difficult and expensive shipment the set does not include the tubes for the mast and for the two struts. They are of standard size and can easily be obtained on the spot all over the world.

The superwind mast set includes:

1 pcs	mast base, adjustable (V4A / AISI 316)
2 pcs	strut mounting, adjustable incl. nuts and bolts (V4A / AISI 316)
4 pcs	strut end piece incl. bolts (stainless steel investment cast)
2 pcs	deck plate incl. nuts and bolts (V4A / AISI 316)

Tubes required:

1 pcs	mast tube 60.3 mm x 2 mm, length approx. 2.6 m depending on specific installation conditions (material V4A (V2A) / AISI 316 (AISI 301))
2 pcs	strut tube 21.3 mm x 2 mm, length approx. 2.3 m depending on specific installation conditions (material V4A (V2A) / AISI 316 (AISI 301))
